ملف المنح والتمويل الدولي | **International Permaculture & Regenerative Agriculture Grants**

دليل مراسلة المنظمات والمؤسسات الدولية المانحة لدعم غابة الطعام ومياواكي بمدينة 6 أكتوبر

مُعد بصيغة «مبادر ومصمم فردي للمشروع (أحمد خليل) بدون لجنة تأسيسية مسبقة» مع خيار التوريد العيني أو المظلة القانونية المصرية

إجمالي الجهات المانحة المستهدفة:
10 منظمات وصناديق دولية وإقليمية في مصر والعالم

نطاق التمويل المستهدف:
$5,000 – $70,000 USD + شتلات حيوية + شهادات كربون

مبادر ومصمم المشروع:
أحمد خليل (Ahmed Khalil, EMBA, M.Ed., M.Sc., PDC Pro)

لوحة الإرسال التفاعلية:
https://cryptoprince9.github.io/october6-food-forest-form/outreach.html

أولاً: قائمة المنظمات الدولية والإقليمية المستهدفة لدعم وتمويل المشروع في مصر

المنظمة الدولية / الجهة المانحة	البريد الإلكتروني الرسمي للمنح	قيمة الدعم / المنحة	محور التوافق مع غابة طعام 6 أكتوبر
1. سفارة اليابان بالقاهرة — برنامج منح الدعم الشعبي لمشروعات أمن الإنسان (KUSANONE) Embassy of Japan in Egypt — KUSANONE Grassroots Human Security Grant (GAGP)	`gagp@ca.mofa.go.jp`	**$25,000 – $70,000 USD**	Japanese Miyawaki Afforestation Method, Community Education & Urban Environment in Egypt
2. برنامج المنح الصغيرة لمرفق البيئة العالمية (GEF SGP / UNDP Egypt) UNDP Egypt — GEF Small Grants Programme (SGP)	`registry.eg@undp.org`	**$25,000 – $50,000 USD**	Community-Based Landscape Resilience, Biodiversity, Land Degradation Neutrality & Climate Mitigation
3. مبادرة سيكم / الجمعية المصرية للزراعة الحيوية (EBDA) / اقتصاد المحبة (Economy of Love) SEKEM Initiative / Egyptian Biodynamic Association (EBDA) / Economy of Love	`info@ebda.earth, info@economyoflove.net, pr@sekem.com, cs@sekem.com`	**Carbon Credits + Biodynamic Inputs + Institutional Adoption**	Biodynamic Desert Reclamation, Economy of Love Carbon Certification, Compost & Tree Seedlings in Egypt
4. منظمة الأغذية والزراعة للأمم المتحدة — المكتب الإقليمي للشرق الأدنى وشمال أفريقيا بالقاهرة (FAO-RNE) FAO Regional Office for the Near East and North Africa (FAO-RNE Cairo)	`FAO-RNE@fao.org`	**Technical Cooperation + FAO Green Cities Initiative Support**	Urban & Peri-Urban Forestry, FAO Green Cities Initiative, Dryland Agroforestry & Food Security

المنظمة الدولية / الجهة المانحة	البريد الإلكتروني الرسمي للمنح	قيمة الدعم / المنحة	محور التوافق مع غابة طعام 6 أكتوبر
5. المركز الدولي للبحوث الزراعية في المناطق الجافة بالقاهرة (ICARDA) والمركز العالمي للحراجة الزراعية (ICRAF) ICARDA Cairo & CIFOR-ICRAF (World Agroforestry — Drylands Program)	`icarda@cgiar.org, ifpri-egypt@cgiar.org, icraf@cgiar.org`	**Dryland Tree Germplasm + Research Living Lab Partnership**	Arid Agroforestry Germplasm (Baobab, Sea Buckthorn, Carob, Moringa), Subsurface Water Productivity & Soil Restoration
6. جائزة Lush Spring Prize العالمية للمشروعات التجديدية وجائزة مجلة البرماكالتشر Lush Spring Prize & Permaculture Magazine Award	`lushspringprize@gmail.com, anna@ethicalconsumer.org, francesca@ethicalconsumer.org`	**£25,000 – £10,000 GBP**	Intentional & Young Permaculture Projects, Social & Ecological Regeneration
7. منظمة One Tree Planted العالمية للتشجير المجتمعي والحضري One Tree Planted — Global Urban & Community Reforestation	`hello@onetreeplanted.org`	**$50,000 – $10,000 USD (Tree Planting Grant / In-Kind Seedling Sponsorship)**	Urban Forestry, Food Forests, Heat Island Mitigation & Community Tree Planting
8. صندوق Global Greengrants Fund وصندوق الزراعة الإيكولوجية (Agroecology Fund) Global Greengrants Fund & Agroecology Fund	`info@greengrants.org, contact@agroecologyfund.org, daniel@agroecologyfund.org`	**$25,000 – $5,000 USD**	Grassroots Food Sovereignty, Dryland Agroecology & Community Climate Action
9. الوكالة الألمانية للتعاون الدولي (GIZ Egypt) وبرنامج المدن الخضراء (6th of October GCAP) GIZ Egypt & EBRD Green Cities (6th of October GCAP Alignment)	`giz-aegypten@giz.de, info@giz.de`	**Technical & Direct Infrastructure Co-Financing**	Green Urban Infrastructure, Stormwater Sponge City Solutions & Climate Adaptation in Egypt
10. مؤسسة ساويرس للتنمية الاجتماعية وبرامج المسؤولية المجتمعية الخضراء بمصر Sawiris Foundation for Social Development & Egyptian Green CSR Partners	`info@sawirisfoundation.org`	**– 250,000 EGP 1,000,000 (CSR / Community Development Grant via Host NGO)**	Community Food Security, Green Jobs, Environmental Education & Presidential 100 Million Trees Initiative

ثانياً: نصوص الرسائل التمويلية المخصصة (موضّحاً بها صفتك الفردية كمبادر ومصمم للمشروع)

1. سفارة اليابان بالقاهرة — برنامج منح الدعم الشعبي لمشروعات أمن الإنسان (KUSANONE)

Embassy of Japan in Egypt — KUSANONE Grassroots Human Security Grant (GAGP) | قيمة المنحة/الدعم: $25,000 – $70,000 USD

`gagp@ca.mofa.go.jp`

Subject: Grant & Partnership Inquiry (KUSANONE / GAGP): Miyawaki Urban Forest & Permaculture Food Forest in 6th of October City, Egypt

Dear KUSANONE (Grant Assistance for Grassroots Human Security Projects) Coordinator,
Embassy of Japan in Egypt,

I am writing to you individually as the sole project initiator and lead permaculture designer of the "6th of October City Permaculture & Miyawaki Food Forest Initiative" (Giza Governorate, Egypt). Please note that there is no founding committee formed yet; I have independently prepared the complete satellite-calibrated feasibility study and engineering master plan for a 14,906.3 m^2 (3.55-feddan) public site in 6th of October City (GPS: 29.9535736° N, 30.9217508° E, directly north of El Maamon Center).

Inspired directly by the pioneering ecological restoration methodology of Japanese botanist Professor Akira Miyawaki, the project integrates:
1. A 3,200 m^2 Ultra-Dense Miyawaki Native Perimeter Forest (9,600 native drought-hardy seedlings at 3 trees/m^2) to combat urban heat islands (-4.5°C cooling) and desert dust storms.
2. A 7,450 m^2 7-Layer Syntropic Food Forest & Self-Improving Bio-Irrigation System combining Olive, Fig, Pomegranate, Date Palm, Carob, Moringa, Seed-Grown Baobab (Adansonia digitata), and Sea Buckthorn (Hippophae rhamnoides) with subsurface clay pot (Olla) irrigation (-78% water consumption) and Keyline rainwater-harvesting swales (828 m^3 stormwater capacity).
3. An Open-Air Green Classroom serving surrounding nurseries and schools, plus 12.8 tons/year of free organic fruits and superfoods for local families.

In full compliance with Egyptian Law No. 149 of 2019, I am currently coordinating with registered Egyptian NGOs and 6th of October universities to serve as the official Legal Umbrella / Fiscal Sponsor (or we can partner with any accredited Egyptian NGO recommended by the Embassy) to submit and host the KUSANONE grant.

• Live Project Portal & Community Survey: https://cryptoprince9.github.io/october6-food-forest-form/
• Full Engineering & Feasibility Portfolio (PDF): https://cryptoprince9.github.io/october6-food-forest-form/0_Complete_Combined_Portfolio_AR.pdf
• Legal Umbrella & Fiscal Sponsorship Kit (PDF): https://cryptoprince9.github.io/october6-food-forest-form/6_Egyptian_Legal_Umbrella_and_Fiscal_Sponsorship_Kit_AR.pdf

I would be deeply grateful for your guidance on the KUSANONE application process and any recommended accredited host partners.

With highest regards,
Ahmed Khalil, EMBA, M.Ed., M.Sc., PDC Pro
Project Initiator & Lead Permaculture Designer — 6th of October City, Giza, Egypt
Phone / WhatsApp: +20 103 803 4236 | +221 78 928 33 64

2. برنامج المنح الصغيرة لمرفق البيئة العالمية (GEF SGP / UNDP Egypt)

`registry.eg@undp.org`

UNDP Egypt — GEF Small Grants Programme (SGP) | قيمة المنحة/الدعم: 25,000$ – 50,000$ USD

Subject: GEF Small Grants Programme (SGP Egypt) Concept & Host NGO Pairing: 3.55-Feddan Regenerative Food Forest in 6th of October City

Dear GEF Small Grants Programme (SGP) National Coordinator & UNDP Egypt Environment Team,

I am writing individually as the sole project initiator and lead permaculture designer of the "6th of October City Community Permaculture & Miyawaki Food Forest Project" (14,906.3 m^2 / 3.55 feddans at 29.9535736° N, 30.9217508° E). Please note that there is no founding committee formed yet; I have independently completed the full satellite-calibrated engineering feasibility study and master plan, and I am seeking GEF-SGP Egypt's guidance on submitting this turnkey project through an accredited Egyptian NGO/CDA under Law No. 149 of 2019 (including AOYE or a nominated Giza partner NGO).

Our project transforms 3.55 feddans of degraded calcareous desert land in 6th of October City into a model zero-waste urban agroforestry ecosystem aligned with Egypt Vision 2030, the Presidential "100 Million Trees" Initiative, and 6th of October City's Green City Action Plan (GCAP):
• Climate Mitigation & Biodiversity: Planting 10,500 native and drought-adapted multipurpose trees/shrubs sequestering ~41.2 metric tons of CO_2/year and raising Sentinel-2 NDVI from 0.09 to 0.76.
• Land Degradation Neutrality & Bio-Irrigation: Remediating alkaline calcareous soil (pH 8.0, SOC 0.45%) using locally produced biochar, market organic waste Bokashi composting, Frankia nitrogen-fixing Sea Buckthorn (60–180 kg N/ha/yr + nocturnal hydraulic lift), and seed-grown Baobab biological subsoiling.
• Non-Conventional Water Harvesting: Capturing 4,230 m^3/year of street flash-flood runoff in 3 Keyline contour swales, AC condensate, and bio-filtered greywater delivered via buried porous clay Ollas (-78% water use).

• Live Portal & Community Survey: https://cryptoprince9.github.io/october6-food-forest-form/
• Complete Feasibility Study & Master Plan (PDF): https://cryptoprince9.github.io/october6-food-forest-form/0_Complete_Combined_Portfolio_AR.pdf

Sincerely,
Ahmed Khalil, EMBA, M.Ed., M.Sc., PDC Pro
Project Initiator & Lead Permaculture Designer — 6th of October City, Egypt

3. مبادرة سيكم / الجمعية المصرية للزراعة الحيوية (EBDA) / اقتصاد المحبة (Economy of Love)

Carbon Credits + قيمة المنحة/الدعم: | SEKEM Initiative / Egyptian Biodynamic Association (EBDA) / Economy of Love
Biodynamic Inputs + Institutional Adoption

`info@ebda.earth, info@economyoflove.net, pr@sekem.com, cs@sekem.com`

Subject: Project Adoption & Economy of Love Carbon Certification Proposal (Solo Initiator): 3.55-Feddan Food Forest in 6th of October City

Dear SEKEM Initiative, Egyptian Biodynamic Association (EBDA), and Economy of Love (EoL) Teams,

Inspired by SEKEM's 45+ years of pioneering desert greening and biodynamic agriculture in Egypt, I am writing to you individually as the sole initiator and lead permaculture designer of the "6th of October City Community Permaculture & Miyawaki Food Forest" (14,906.3 m^2 / 3.55 feddans at 29.9535736° N, 30.9217508° E). Please note that there is no founding committee formed yet; I have independently prepared the full engineering and ecological feasibility study and am proposing that EBDA / SEKEM adopt the project under your institutional umbrella and Economy of Love (EoL) certification framework:

• 10,500 multipurpose trees and shrubs across 7 vertical layers (Date Palm, Olive, Fig, Pomegranate, Carob, Moringa, Sidr, Baobab, and Sea Buckthorn).
• Closed-loop thermophilic composting, biochar inoculation, and mycorrhizal soil food web restoration recycling daily organic produce trimmings from adjacent markets (El Maamon Center).
• Projected carbon sequestration of 41.2 tons CO_2/year in biomass and soil organic carbon (raising SOM from 0.45% to >4.2%).

We would love to collaborate with EBDA and Economy of Love on:
1. Adopting the project under EBDA's institutional umbrella and registering it under the Economy of Love (EoL) Carbon & Biodiversity credit standard.
2. Sourcing biodynamic inoculants, compost starters, and native/arid tree seedlings.

• Live Project Hub: https://cryptoprince9.github.io/october6-food-forest-form/
• Full PDF Study: https://cryptoprince9.github.io/october6-food-forest-form/0_Complete_Combined_Portfolio_AR.pdf

Warmest regards,
Ahmed Khalil, EMBA, M.Ed., M.Sc., PDC Pro

4. منظمة الأغذية والزراعة للأمم المتحدة — المكتب الإقليمي للشرق الأدنى وشمال أفريقيا بالقاهرة (FAO-RNE)
Technical Cooperation + FAO :قيمة المنحة/الدعم | FAO Regional Office for the Near East and North Africa (FAO-RNE Cairo)
Green Cities Initiative Support
`FAO-RNE@fao.org`

Subject: FAO Green Cities Initiative — Urban Food Forest & Dryland Agroforestry Pilot in 6th of October City, Egypt (Solo Initiator Dossier)

Dear Forestry and Natural Resources Management Team,
FAO Regional Office for the Near East and North Africa (FAO-RNE), Dokki, Cairo,

I am writing individually as the sole project initiator and lead permaculture designer of an Urban Agroforestry & Permaculture Food Forest pilot in 6th of October City, Giza (14,906.3 m^2 / 3.55 feddans at 29.9535736° N, 30.9217508° E), designed in alignment with the FAO Green Cities Initiative and Egypt's "100 Million Trees" Presidential Initiative. Please note that there is no founding committee formed yet; I have independently engineered the complete technical feasibility study and master plan so it can be adopted directly by an institutional partner or municipality.

Using open-source satellite telemetry (Copernicus Sentinel-2, DEM, ISRIC SoilGrids, NASA SMAP, and 10-year ECMWF ERA5 climate records), this replicable arid urban food forest blueprint combines:
• High-density Miyawaki shelterbelts + 7-layer syntropic food forest guilds.
• Subsurface porous clay pot (Olla) irrigation + Keyline stormwater swales + nocturnal hydraulic lift via Sea Buckthorn (Hippophae rhamnoides) and seed-grown Baobab (Adansonia digitata).
• 12.8 metric tons/year of free nutritious fruits, olives, carob, moringa, and medicinal herbs for urban residents.

I kindly request FAO-RNE's technical endorsement, connection with FAO-accredited Egyptian implementing partners/municipalities, and inclusion in FAO Urban Greening pilots in Egypt.

• Live Project Portal: https://cryptoprince9.github.io/october6-food-forest-form/
• Full Feasibility & Engineering Study (PDF): https://cryptoprince9.github.io/october6-food-forest-form/0_Complete_Combined_Portfolio_AR.pdf

Respectfully,
Ahmed Khalil, EMBA, M.Ed., M.Sc., PDC Pro

5. المركز الدولي للبحوث الزراعية في المناطق الجافة بالقاهرة (ICARDA) والمركز العالمي للحراجة الزراعية (ICRAF)

ICARDA Cairo & CIFOR-ICRAF (World Agroforestry — Drylands Program) | قيمة المنحة/الدعم: + Dryland Tree Germplasm Research Living Lab Partnership

`icarda@cgiar.org, ifpri-egypt@cgiar.org, icraf@cgiar.org`

Subject: Dryland Urban Agroforestry Living Lab in 6th of October City, Egypt — Germplasm & Institutional Research Inquiry

Dear ICARDA Cairo and CIFOR-ICRAF Dryland Agroforestry Teams,

I am writing to you individually as the sole initiator and lead permaculture designer of a 14,906.3 m^2 (3.55-feddan) dryland agroforestry and bio-irrigation living lab design in 6th of October City, Giza, Egypt (29.9535736° N, 30.9217508° E). Please note that there is no founding committee formed yet; I have independently prepared the full hydrological, pedological, and agroforestry design to offer it as an institutional Living Lab:

1. Bio-Hydraulic Redistribution & Actinorhizal N-Fixation: Pairing deep-rooted Hippophae rhamnoides subsp. turkestanica (Frankia symbiosis + organic acid P-solubilization in pH 8.0 calcareous soil + nocturnal hydraulic lift from the 34% moist 1–3m soil layer mapped by NASA SMAP) with seed-grown Adansonia digitata (Baobab tuberous caudex subsoiling and mucilage hydrogel leaf litter).
2. Ultra-Low-Cost Water Harvesting: Three contour swales (828 m^3 storm capacity) + buried unglazed clay Ollas + AC condensate and greywater reed-bed bio-filtration, cutting irrigation water demand by 78%.

I am seeking in-kind arid-adapted tree seeds/germplasm, soil microbial inoculants (Frankia & AMF Glomus strains), and joint research/institutional sponsorship in coordination with local universities and registered Egyptian NGOs.

• Project Portal: https://cryptoprince9.github.io/october6-food-forest-form/

6. جائزة Lush Spring Prize العالمية للمشروعات التجديدية وجائزة مجلة البرماكالتشر

Lush Spring Prize & Permaculture Magazine Award | قيمة المنحة/الدعم: £10,000 – £25,000 GBP

`lushspringprize@gmail.com, anna@ethicalconsumer.org, francesca@ethicalconsumer.org`

Subject: Lush Spring Prize (Intentional Category) & Permaculture Award Inquiry: 6th of October City Food Forest, Egypt

Dear Lush Spring Prize and Ethical Consumer Team,

I am writing from 6th of October City, Egypt, as the sole initiator and lead permaculture designer (PDC Pro) of the "6th of October City Permaculture & Miyawaki Food Forest Project" (14,906.3 m^2 / 3.55 feddans at 29.9535736° N, 30.9217508° E) to inquire about applying for the Lush Spring Prize (Intentional Projects Category) and the Permaculture Magazine Award. Please note that the project is currently at the Intentional / Pre-Committee stage (developed by me individually as a complete engineering and satellite-calibrated master plan, and currently being placed under the fiscal sponsorship of a registered Egyptian environmental NGO/university in accordance with Egyptian law).

Embodying the three Permaculture Ethics (Earth Care, People Care, Fair Share), this intentional blueprint:
• Reclaims a barren 14,906 m^2 urban desert plot into a 7-layer edible ecosystem and Miyawaki shelterbelt using 100% open-source satellite/soil design, rainwater-harvesting swales, AC condensate recovery, clay pot (Olla) irrigation, and community market composting.
• Integrates seed-grown Baobab and Sea Buckthorn for passive nocturnal hydraulic lift and biological soil remediation.
• Provides up to 12.8 tons/year of free organic fruit, olives, carob, moringa, and medicinal herbs to surrounding families and schools.

• Live Community Portal & Survey: https://cryptoprince9.github.io/october6-food-forest-form/
• Full Feasibility & Design Portfolio (PDF): https://cryptoprince9.github.io/october6-food-forest-form/0_Complete_Combined_Portfolio_AR.pdf

7. منظمة One Tree Planted العالمية للتشجير المجتمعي والحضري

USD (Tree Planting 50,000$ – 10,000$:قيمة المنحة/الدعم | One Tree Planted — Global Urban & Community Reforestation Grant / In-Kind Seedling Sponsorship)

`hello@onetreeplanted.org`

Subject: Urban Reforestation Project Proposal (10,500 Trees): 6th of October City Food Forest & Miyawaki Shelterbelt, Egypt

Dear One Tree Planted Projects & Partnerships Team,

I am writing individually as the sole project initiator and lead permaculture designer of a high-impact Urban Reforestation & Community Food Forest project in 6th of October City, Greater Cairo, Egypt (14,906.3 m^2 / 3.55 acres at 29.9535736° N, 30.9217508° E). Please note that there is no founding committee formed yet; I have independently prepared the full engineering and hydrological feasibility study and am currently pairing the project with an accredited Egyptian host NGO/university (or we can work via direct nursery/vendor sponsorship or any One Tree Planted partner NGO in Egypt).

Our design plants 10,500 native and drought-hardy fruit, nut, and nitrogen-fixing trees (Olive, Fig, Pomegranate, Date Palm, Carob, Moringa, Sidr, Acacia, Baobab, and Sea Buckthorn) using a hybrid Miyawaki perimeter + 7-layer Permaculture Food Forest design:
• Survival Rate >90% in Arid Desert: Guaranteed via 3 Keyline stormwater-harvesting swales (828 m^3 capacity), buried unglazed clay Ollas (-78% water use), 15cm organic mulch, and nocturnal hydraulic lift.
• Community Impact: Directly cools surrounding residential blocks by 4.5°C, sequesters 41.2 tons CO_2/year, serves 3 adjacent children's nurseries/academies, and yields 12.8 tons/year of free organic food.

• Live Project Portal: https://cryptoprince9.github.io/october6-food-forest-form/
• Full Technical Feasibility Study (PDF): https://cryptoprince9.github.io/october6-food-forest-form/0_Complete_Combined_Portfolio_AR.pdf

Best regards,

8. صندوق Global Greengrants Fund وصندوق الزراعة الإيكولوجية (Agroecology Fund)

Global Greengrants Fund & Agroecology Fund | قيمة المنحة/الدعم: 5,000$ – 25,000$ USD

`info@greengrants.org, contact@agroecologyfund.org, daniel@agroecologyfund.org`

Subject: Grassroots Agroecology Grant & Fiscal Sponsor Pairing Inquiry: 6th of October City Food Forest, Egypt

Dear Global Greengrants Fund and Agroecology Fund Teams,

I am writing from 6th of October City, Egypt, as the sole initiator and lead permaculture designer of the "6th of October City Permaculture & Miyawaki Food Forest Project" (14,906.3 m^2 / 3.55 feddans at 29.9535736° N, 30.9217508° E). Please note that there is no founding committee formed yet; I have independently developed the complete satellite-calibrated agroecological study and am currently pairing with a registered Egyptian environmental NGO/social enterprise as our Legal Umbrella / Fiscal Sponsor under Egyptian law (and would also welcome recommendations from your MENA regional advisory board).

Designed with open-source satellite and agroecological tools, this initiative transforms a barren urban desert lot into a self-sustaining 7-layer food forest producing 12.8 tons/year of free organic food while harvesting 100% of its water from flash-flood street runoff, AC condensate, subsurface clay Ollas, and deep-rooted pioneer trees (Baobab & Sea Buckthorn).

• Live Community Hub & Survey: https://cryptoprince9.github.io/october6-food-forest-form/
• Full Feasibility & Engineering Study (PDF): https://cryptoprince9.github.io/october6-food-forest-form/0_Complete_Combined_Portfolio_AR.pdf

9. الوكالة الألمانية للتعاون الدولي (GIZ Egypt) وبرنامج المدن الخضراء (6th of October GCAP)

Technical & Direct Infrastructure Co- :قيمة المنحة/الدعم | GIZ Egypt & EBRD Green Cities (6th of October GCAP Alignment) Financing

`giz-aegypten@giz.de, info@giz.de`

Subject: Green Urban Infrastructure Pilot in 6th of October City (GCAP Alignment): Sponge-City Permaculture Food Forest Blueprint

Dear GIZ Egypt Urban Development, Water, and Climate Adaptation Teams,

I am writing individually as the sole project initiator and lead permaculture designer to share a turnkey engineering feasibility study and master plan for a Green Urban Infrastructure & Sponge-City Food Forest pilot in 6th of October City, Giza (14,906.3 m^2 at 29.9535736° N, 30.9217508° E), directly supporting 6th of October City's Green City Action Plan (GCAP). Please note that there is no founding committee formed yet; I have prepared this complete engineering blueprint so it can be adopted directly by GIZ Egypt's municipal/university/NGO partners in 6th of October City.

Our design solves two critical municipal challenges at zero operational cost to the City Authority:
1. Urban Flash-Flood Mitigation: Three Keyline contour swales with street curb-cuts capture up to 828 m^3 of stormwater per storm event (100% of a 31.5 mm Dragon Storm event).
2. Urban Heat Island & Water Scarcity: A 10,500-tree Miyawaki + 7-layer food forest irrigated via AC condensate, bio-filtered greywater, subsurface clay Ollas, and deep-root hydraulic lift (Baobab & Sea Buckthorn).

• Live Project Portal: https://cryptoprince9.github.io/october6-food-forest-form/

10. مؤسسة ساويرس للتنمية الاجتماعية وبرامج المسؤولية المجتمعية الخضراء بمصر

Sawiris Foundation for Social Development & Egyptian Green CSR Partners | قيمة المنحة/الدعم: EGP 1,000,000 – 250,000

(CSR / Community Development Grant via Host NGO)

`info@sawirisfoundation.org`

Subject: عرض مشروع بيئي ومجتمعي متكامل للتبني والتمويل: أول غابة طعام مجانية ومياواكي بمدينة 6 أكتوبر (مبادرة فردية جاهزة للتنفيذ)

السادة الكرام في مؤسسة ساويرس للتنمية الاجتماعية وإدارات المسؤولية المجتمعية والبيئية (CSR)،
تحية طيبة وبعد،،،

أتقدم لسيادتكم بمفردي بصفتي صاحب الفكرة ومعدّ دراسة الجدوى الهندسية والبيئية لمشروع «غابة الطعام المجتمعية ومياواكي بمدينة 6 أكتوبر» على قطعة الأرض الفضاء البالغة مساحتها 14,906.3 م² (3.55 فدان) شمال سنتر المأمون بمدينة 6 أكتوبر (29.9535736°N, 30.9217508°E). وأود التوضيح بكل شفافية أنه لا توجد لجنة تأسيسية قائمة بعد، بل أعددتُ بمجهودي الفردي الدراسة الهندسية والمناخية الكاملة للمشروع، وأعرض الفكرة على مؤسسة ساويرس للتنمية الاجتماعية لدعمها وتمويلها عبر إحدى الجمعيات الشريكة المعتمدة لدى مؤسستكم الموقرة (أو الجمعيات البيئية التي ننسق معها حالياً لتوفير المظلة القانونية طبقاً لقانون 149 لسنة 2019).

• الأثر المجتمعي والغذائي: زراعة 10,500 شجرة وشجيرة مثمرة ووطنية تنتج عند النضج 12.8 طن سنوياً من الفواكه والزيتون والمورينجا وثمار التبلدي ونبق البحر توزع مجاناً على الأهالي والأسر المستحقة، مع معمل بيئي مفتوح لأطفال الحضانات والمدارس المحيطة.
• الاستدامة المائية والمناخية: توفير 78% من استهلاك المياه عبر الفخار المسامي المدفون (Ollas) والرفع الهيدروليكي الحيوي وحصاد 828 م³ من مياه الأمطار والتكييفات، واحتجاز 41.2 طن كربون سنوياً.

• البوابة الرقمية للمشروع واستمارة مشاركة السكان الحية: https://cryptoprince9.github.io/october6-food-forest-form/
• دراسة الجدوى الشاملة والمخطط الهندسي (PDF): https://cryptoprince9.github.io/october6-food-forest-form/0_Complete_Combined_Portfolio_AR.pdf
• ملف المظلة القانونية ومسودة بروتوكول التبني المؤسسي (PDF): https://cryptoprince9.github.io/october6-food-forest-form/6_Egyptian_Legal_Umbrella_and_Fiscal_Sponsorship_Kit_AR.pdf

أتطلع لشرف التعاون مع مؤسستكم الموقرة وترشيح الجمعية الشريكة الأنسب لاحتضان وتنفيذ هذا النموذج الرائد في مدينة 6 أكتوبر.

مع خالص التقدير والاحترام،،،
أحمد خليل (Ahmed Khalil, EMBA, M.Ed., M.Sc., PDC Pro)
