ملف المنح والتمويل الدولي | International Permaculture & Regenerative Agriculture Grants

دليل مراسلة المنظمات والمؤسسات الدولية المانحة لدعم غابة الطعام ومياواكي بمدينة 6 أكتوبر

يتضمن 10 خطابات تمويلية مخصصة (باللغتين الإنجليزية والعربية) وروابط إرسال فوري بضغطة زر واحدة

إجمالي الجهات المانحة المستهدفة: 10 منظمات وصناديق دولية وإقليمية في مصر والعالم

نطاق التمويل المستهدف: $5,000 – USD $70,000 + شتلات حيوية + شهادات كربون

البوابة الحية للمشروع (للممولين): https://cryptoprince9.github.io/october6-food-forest-form/

لوحة الإرسال التفاعلية: https://cryptoprince9.github.io/october6-food-forest-form/outreach.html

أولاً: قائمة المنظمات الدولية والإقليمية المستهدفة لدعم وتمويل المشروع في مصر

المنظمة الدولية / الجهة المانحة	البريد الإلكتروني الرسمي للمنح	قيمة الدعم / المنحة	محور التوافق مع غابة طعام 6 أكتوبر
1. سفارة اليابان بالقاهرة — برنامج منح الدعم الشعبي لمشروعات أمن الإنسان (KUSANONE) Embassy of Japan in Egypt — KUSANONE Grassroots Human Security Grant (GAGP)	gagp@ca.mofa.go.jp	**$70,000 – $25,000 USD**	Japanese Miyawaki Afforestation Method, Community Education & Urban Environment in Egypt
2. برنامج المنح الصغيرة لمرفق البيئة العالمية (GEF SGP / UNDP Egypt) UNDP Egypt — GEF Small Grants Programme (SGP)	registry.eg@undp.org	**$50,000 – $25,000 USD**	Community-Based Landscape Resilience, Biodiversity, Land Degradation Neutrality & Climate Mitigation
3. مبادرة سيكم / الجمعية المصرية للزراعة الحيوية (EBDA) / اقتصاد المحبة (Economy of Love) SEKEM Initiative / Egyptian Biodynamic Association (EBDA) / Economy of Love	info@ebda.earth, info@economyoflove.net, pr@sekem.com, cs@sekem.com	**Carbon Credits + Biodynamic Inputs + Technical Partnership**	Biodynamic Desert Reclamation, Economy of Love Carbon Certification, Compost & Tree Seedlings in Egypt
4. منظمة الأغذية والزراعة للأمم المتحدة — المكتب الإقليمي للشرق الأدنى وشمال أفريقيا بالقاهرة (FAO-RNE) FAO Regional Office for the Near East and North Africa (FAO-RNE Cairo)	FAO-RNE@fao.org	**Technical Cooperation + FAO Green Cities Initiative Support**	Urban & Peri-Urban Forestry, FAO Green Cities Initiative, Dryland Agroforestry & Food Security

المنظمة الدولية / الجهة المانحة	البريد الإلكتروني الرسمي للمنح	قيمة الدعم / المنحة	محور التوافق مع غابة طعام 6 أكتوبر
5. المركز الدولي للبحوث الزراعية في المناطق الجافة بالقاهرة (ICARDA) والمركز العالمي للحراجة الزراعية (ICRAF) ICARDA Cairo & CIFOR-ICRAF (World Agroforestry — Drylands Program)	`icarda@cgiar.org, ifpri-egypt@cgiar.org, icraf@cgiar.org`	**Dryland Tree Germplasm + Research Grant Partnership**	Arid Agroforestry Germplasm (Baobab, Sea Buckthorn, Carob, Moringa), Subsurface Water Productivity & Soil Restoration
6. جائزة Lush Spring Prize العالمية للمشروعات التجديدية وجائزة مجلة البرماكالتشر Lush Spring Prize & Permaculture Magazine Award	`lushspringprize@gmail.com, anna@ethicalconsumer.org, francesca@ethicalconsumer.org`	**£25,000 – £10,000 GBP**	Intentional & Young Permaculture Projects, Social & Ecological Regeneration
7. منظمة One Tree Planted العالمية للتشجير المجتمعي والحضري One Tree Planted — Global Urban & Community Reforestation	`hello@onetreeplanted.org`	**$50,000 – $10,000 USD (Tree Planting Grant)**	Urban Forestry, Food Forests, Heat Island Mitigation & Community Tree Planting
8. صندوق Global Greengrants Fund وصندوق الزراعة الإيكولوجية (Agroecology Fund) Global Greengrants Fund & Agroecology Fund	`info@greengrants.org, contact@agroecologyfund.org, daniel@agroecologyfund.org`	**$25,000 – $5,000 USD**	Grassroots Food Sovereignty, Dryland Agroecology & Community Climate Action
9. الوكالة الألمانية للتعاون الدولي (GIZ Egypt) وبرنامج المدن الخضراء (6th of October GCAP) GIZ Egypt & EBRD Green Cities (6th of October GCAP Alignment)	`giz-aegypten@giz.de, info@giz.de`	**Technical & Infrastructure Co-Financing**	Green Urban Infrastructure, Stormwater Sponge City Solutions & Climate Adaptation in Egypt
10. مؤسسة ساويرس للتنمية الاجتماعية وبرامج المسؤولية المجتمعية الخضراء بمصر Sawiris Foundation for Social Development & Egyptian Green CSR Partners	`info@sawirisfoundation.org`	**– 250,000 EGP 1,000,000 (CSR / Community Development Grant)**	Community Food Security, Green Jobs, Environmental Education & Presidential 100 Million Trees Initiative

ثانياً: نصوص الرسائل التمويلية المخصصة والجاهزة للإرسال الفوري (Click Dispatch-1)

1. سفارة اليابان بالقاهرة — برنامج منح الدعم الشعبي لمشروعات أمن الإنسان (KUSANONE)

Embassy of Japan in Egypt — KUSANONE Grassroots Human Security Grant (GAGP) | قيمة المنحة/الدعم: 25,000$ – 70,000$ USD

`gagp@ca.mofa.go.jp`

Subject: Grant Inquiry (KUSANONE / GAGP): Community Miyawaki Urban Forest & Permaculture Food Forest in 6th of October City, Giza

Dear KUSANONE (Grant Assistance for Grassroots Human Security Projects) Coordinator,
Embassy of Japan in Egypt,

Greetings from the Founding Community Committee of the 6th of October City Permaculture & Miyawaki Food Forest Initiative (Giza Governorate, Egypt).

We are writing to inquire about submitting a grassroots project proposal under Japan's KUSANONE (GAGP) program for our community-led ecological and food-security project located on a 14,906 m^2 (3.55-feddan) public site in 6th of October City (GPS: 29.9535736° N, 30.9217508° E, directly north of El Maamon Center).

Inspired directly by the pioneering ecological restoration methodology of Japanese botanist Professor Akira Miyawaki, our project integrates:
1. A 3,200 m^2 Ultra-Dense Miyawaki Native Perimeter Forest (9,600 native drought-hardy seedlings at 3 trees/m^2) to combat urban heat islands (-4.5°C cooling) and desert dust storms.
2. A 7,450 m^2 7-Layer Syntropic Food Forest & Self-Improving Bio-Irrigation System combining Olive, Fig, Pomegranate, Date Palm, Carob, Moringa, Seed-Grown Baobab (Adansonia digitata), and Sea Buckthorn (Hippophae rhamnoides) with subsurface clay pot (Olla) irrigation (-78% water consumption) and Keyline rainwater-harvesting swales (828 m^3 stormwater capacity).
3. An Open-Air Green Classroom serving surrounding nurseries (Little Bloom, Joyland) and Zahra Educational Academy, plus 12.8 tons/year of free organic fruits and superfoods for local families and Jana Al Janatain Charity Association.

Full satellite feasibility study, engineering drawings, and community participation form:
• Live Project Portal & Community Survey: https://cryptoprince9.github.io/october6-food-forest-form/
• Full Engineering & Feasibility Portfolio (PDF): https://cryptoprince9.github.io/october6-food-forest-form/0_Complete_Combined_Portfolio_AR.pdf

We would be deeply grateful for your guidance on the current KUSANONE application cycle and the opportunity to share our full bilingual dossier.

With highest regards,
Founding Community Committee — 6th of October City Miyawaki & Food Forest Initiative
Location: 4th/5th District Border, North of El Maamon Mall, 6th of October City, Giza, Egypt

إرسال فوري عبر Gmail Web (مُعبأ تلقائياً) | فتح في برنامج البريد الافتراضي (Outlook / Mail)

registry.eg@undp.org

2. برنامج المنح الصغيرة لمرفق البيئة العالمية (GEF SGP / UNDP Egypt)

UNDP Egypt — GEF Small Grants Programme (SGP) | قيمة المنحة/الدعم: 25,000$ – 50,000$ USD

Subject: GEF Small Grants Programme (SGP Egypt) Inquiry: 3.55-Feddan Regenerative Food Forest & Miyawaki Carbon Sink in 6th of October City

Dear GEF Small Grants Programme (SGP) National Coordinator & UNDP Egypt Environment Team,

We are writing on behalf of the 6th of October City Community Permaculture & Miyawaki Food Forest Initiative (in partnership with local civil society including Jana Al Janatain Charity Association) to request information on applying for GEF Small Grants Programme support in Egypt.

Our project transforms 14,906 m^2 (3.55 feddans) of degraded calcareous desert land in 6th of October City (29.9535736° N, 30.9217508° E) into a model zero-waste urban agroforestry ecosystem aligned with Egypt Vision 2030, the Presidential "100 Million Trees" Initiative, and 6th of October City's Green City Action Plan (GCAP):
• Climate Mitigation & Biodiversity: Planting 10,500 native and drought-adapted multipurpose trees/shrubs sequestering ~41 metric tons of CO_2/year and raising Sentinel-2 NDVI from 0.09 to 0.76.
• Land Degradation Neutrality & Bio-Irrigation: Remediating alkaline calcareous soil (pH 8.0, SOC 0.45%) using locally produced biochar, market organic waste Bokashi composting, Frankia nitrogen-fixing Sea Buckthorn (60–180 kg N/ha/yr + nocturnal hydraulic lift), and seed-grown Baobab biological subsoiling.
• Non-Conventional Water Harvesting: Capturing 4,230 m^3/year of street flash-flood runoff in 3 Keyline contour swales, AC condensate, and bio-filtered greywater delivered via buried porous clay Ollas (-78% water use).

Project Links & Full Technical Study:
• Live Portal & Community Survey: https://cryptoprince9.github.io/october6-food-forest-form/
• Complete Feasibility Study & Master Plan (PDF): https://cryptoprince9.github.io/october6-food-forest-form/0_Complete_Combined_Portfolio_AR.pdf

We welcome the opportunity to submit a concept note for the upcoming GEF SGP call in Egypt.

Sincerely,
Founding Community Committee — 6th of October City Permaculture Food Forest

3. مبادرة سيكم / الجمعية المصرية للزراعة الحيوية (EBDA) / اقتصاد المحبة (Economy of Love)

Carbon Credits + قيمة المنحة/الدعم: | SEKEM Initiative / Egyptian Biodynamic Association (EBDA) / Economy of Love
Biodynamic Inputs + Technical Partnership

`info@ebda.earth, info@economyoflove.net, pr@sekem.com, cs@sekem.com`

Subject: Partnership & Economy of Love Certification Request: 3.55-Feddan Community Permaculture Food Forest in 6th of October City

Dear SEKEM Initiative, Egyptian Biodynamic Association (EBDA), and Economy of Love (EoL) Teams,

Inspired by SEKEM's 45+ years of pioneering desert greening and biodynamic agriculture in Egypt, we are reaching out to propose a technical, seedling, and carbon-credit partnership for the 6th of October City Community Permaculture & Miyawaki Food Forest (14,906 m^2 / 3.55 feddans at 29.9535736° N, 30.9217508° E).

Our community initiative applies zero-chemical regenerative agroforestry:
• 10,500 multipurpose trees and shrubs across 7 vertical layers (Date Palm, Olive, Fig, Pomegranate, Carob, Moringa, Sidr, Baobab, and Sea Buckthorn).
• Closed-loop thermophilic composting, biochar inoculation, and mycorrhizal soil food web restoration recycling daily organic produce trimmings from adjacent markets (El Maamon Center).
• Projected carbon sequestration of 41 tons CO_2/year in biomass and soil organic carbon (raising SOM from 0.45% to >4.2%).

We would love to collaborate with EBDA and Economy of Love on:
1. Registering the project under the Economy of Love (EoL) Carbon & Social Impact certification standard.
2. Sourcing biodynamic inoculants, compost starters, and native/arid tree seedlings.
3. Hosting joint educational workshops for residents and local school children.

Full Arabic Feasibility Study & Master Plan:
• Live Project Hub: https://cryptoprince9.github.io/october6-food-forest-form/
• Full PDF Study: https://cryptoprince9.github.io/october6-food-forest-form/0_Complete_Combined_Portfolio_AR.pdf

4. منظمة الأغذية والزراعة للأمم المتحدة — المكتب الإقليمي للشرق الأدنى وشمال أفريقيا بالقاهرة (FAO-RNE)
FAO Regional Office for the Near East and North Africa (FAO-RNE Cairo) | قيمة المنحة/الدعم: FAO + Technical Cooperation
Green Cities Initiative Support
`FAO-RNE@fao.org`

Subject: FAO Green Cities Initiative — Community Urban Food Forest & Dryland Agroforestry Pilot in 6th of October City, Egypt

Dear Forestry and Natural Resources Management Team,
FAO Regional Office for the Near East and North Africa (FAO-RNE), Dokki, Cairo,

We are writing to introduce a community-driven Urban Agroforestry & Permaculture Food Forest pilot in 6th of October City, Giza (14,906 m^2 / 3.55 feddans at 29.9535736° N, 30.9217508° E), designed in alignment with the FAO Green Cities Initiative and Egypt's "100 Million Trees" Presidential Initiative.

Using open-source satellite telemetry (Copernicus Sentinel-2, DEM, ISRIC SoilGrids, NASA SMAP, and 10-year ECMWF ERA5 climate records), we have engineered a replicable zero-cost arid urban food forest blueprint combining:
• High-density Miyawaki shelterbelts + 7-layer syntropic food forest guilds.
• Subsurface porous clay pot (Olla) irrigation + Keyline stormwater swales + nocturnal hydraulic lift via Sea Buckthorn (Hippophae rhamnoides) and seed-grown Baobab (Adansonia digitata).
• 12.8 metric tons/year of free nutritious fruits, olives, carob, moringa, and medicinal herbs for urban residents.

We kindly request FAO-RNE's technical endorsement, inclusion in FAO Urban Greening knowledge networks in Egypt, and guidance on available micro-grant or Technical Cooperation Programme (TCP) support.

• Live Project Portal: https://cryptoprince9.github.io/october6-food-forest-form/
• Full Feasibility & Engineering Study (PDF): https://cryptoprince9.github.io/october6-food-forest-form/0_Complete_Combined_Portfolio_AR.pdf

Respectfully,
Founding Community Committee — 6th of October City Permaculture Food Forest

5. المركز الدولي للبحوث الزراعية في المناطق الجافة بالقاهرة (ICARDA) والمركز العالمي للحراجة الزراعية (ICRAF)

ICARDA Cairo & CIFOR-ICRAF (World Agroforestry — Drylands Program) | قيمة المنحة/الدعم: + Dryland Tree Germplasm Research Grant Partnership

`icarda@cgiar.org, ifpri-egypt@cgiar.org, icraf@cgiar.org`

Subject: Dryland Urban Agroforestry Living Lab in 6th of October City, Egypt — Germplasm & Research Collaboration Inquiry

Dear ICARDA Cairo and CIFOR-ICRAF Dryland Agroforestry Teams,

We invite ICARDA and CIFOR-ICRAF to collaborate on a 14,906 m^2 (3.55-feddan) dryland agroforestry and bio-irrigation living lab in 6th of October City, Giza, Egypt (29.9535736° N, 30.9217508° E).

Our site integrates:
1. Bio-Hydraulic Redistribution & Actinorhizal N-Fixation: Pairing deep-rooted Hippophae rhamnoides subsp. turkestanica (Frankia symbiosis + organic acid P-solubilization in pH 8.0 calcareous soil + nocturnal hydraulic lift from the 34% moist 1–3m soil layer mapped by NASA SMAP) with seed-grown Adansonia digitata (Baobab tuberous caudex subsoiling and mucilage hydrogel leaf litter).
2. Ultra-Low-Cost Water Harvesting: Three contour swales (828 m^3 storm capacity) + buried unglazed clay Ollas + AC condensate and greywater reed-bed bio-filtration, cutting irrigation water demand by 78%.

We are seeking high-quality arid-adapted tree seeds/germplasm, soil microbial inoculants (Frankia & AMF Glomus strains), and joint research/funding support.

• Project Portal: https://cryptoprince9.github.io/october6-food-forest-form/
• Complete Technical Dossier (PDF): https://cryptoprince9.github.io/october6-food-forest-form/0_Complete_Combined_Portfolio_AR.pdf

6. جائزة Lush Spring Prize العالمية للمشروعات التجديدية وجائزة مجلة البرماكالتشر

Lush Spring Prize & Permaculture Magazine Award | قيمة المنحة/الدعم: £10,000 – £25,000 GBP

`lushspringprize@gmail.com, anna@ethicalconsumer.org, francesca@ethicalconsumer.org`

Subject: Lush Spring Prize / Permaculture Award Inquiry: Free Community Permaculture Food Forest in 6th of October City, Egypt

Dear Lush Spring Prize and Ethical Consumer Team,

We are writing from 6th of October City, Egypt, to share our community-designed Permaculture & Miyawaki Food Forest project (14,906 m^2 / 3.55 feddans at 29.9535736° N, 30.9217508° E) and inquire about applying for the Lush Spring Prize (Intentional / Young Projects & Permaculture Magazine Award).

Embodying the three Permaculture Ethics (Earth Care, People Care, Fair Share), our project:
• Reclaims a barren 14,906 m^2 urban desert plot into a 7-layer edible ecosystem and Miyawaki shelterbelt using 100% open-source satellite/soil design, rainwater-harvesting swales, AC condensate recovery, clay pot (Olla) irrigation, and community market composting.
• Integrates seed-grown Baobab and Sea Buckthorn for passive nocturnal hydraulic lift and biological soil remediation.
• Provides up to 12.8 tons/year of free organic fruit, olives, carob, moringa, and medicinal herbs to surrounding families, schools, and local charities.

• Live Community Portal & Survey: https://cryptoprince9.github.io/october6-food-forest-form/
• Full Feasibility & Design Portfolio (PDF): https://cryptoprince9.github.io/october6-food-forest-form/0_Complete_Combined_Portfolio_AR.pdf

Thank you for your inspiring support of global regeneration!

Warm regards,
Founding Community Committee — 6th of October City Food Forest, Egypt

7. منظمة One Tree Planted العالمية للتشجير المجتمعي والحضري

USD (Tree Planting 50,000$ – 10,000$:قيمة المنحة/الدعم | One Tree Planted — Global Urban & Community Reforestation Grant)

`hello@onetreeplanted.org`

Subject: Planting Partner Grant Inquiry: 10,500-Tree Community Food Forest & Miyawaki Pocket Forest in 6th of October City, Egypt

Dear One Tree Planted Projects & Partnerships Team,

We are reaching out to propose a high-impact Urban Reforestation & Community Food Forest project in 6th of October City, Greater Cairo, Egypt (14,906 m^2 / 3.55 acres at 29.9535736° N, 30.9217508° E).

Our project plants 10,500 native and drought-hardy fruit, nut, and nitrogen-fixing trees (Olive, Fig, Pomegranate, Date Palm, Carob, Moringa, Sidr, Acacia, Baobab, and Sea Buckthorn) using a hybrid Miyawaki perimeter + 7-layer Permaculture Food Forest design.
• Survival Rate >90% in Arid Desert: Guaranteed via 3 Keyline stormwater-harvesting swales (828 m^3 capacity), buried unglazed clay Ollas (-78% water use), 15cm organic mulch, and nocturnal hydraulic lift.
• Community Impact: Directly cools surrounding residential blocks by 4.5°C, sequesters 41 tons CO_2/year, serves 3 adjacent children's nurseries/academies, and yields 12.8 tons/year of free organic food.

• Live Project Portal: https://cryptoprince9.github.io/october6-food-forest-form/
• Full Technical Feasibility Study (PDF): https://cryptoprince9.github.io/october6-food-forest-form/0_Complete_Combined_Portfolio_AR.pdf

We would love to apply as a community planting partner in Egypt.

Best regards,
Founding Community Committee — 6th of October City Food Forest

8. صندوق Global Greengrants Fund وصندوق الزراعة الإيكولوجية (Agroecology Fund)

Global Greengrants Fund & Agroecology Fund | قيمة المنحة/الدعم: 5,000$ – 25,000$ USD

`info@greengrants.org, contact@agroecologyfund.org, daniel@agroecologyfund.org`

Subject: Grassroots Grant Inquiry: Community-Governed Permaculture Food Forest in 6th of October City, Egypt

Dear Global Greengrants Fund and Agroecology Fund Teams,

We are writing from 6th of October City, Egypt, to inquire about grassroots grant support for our community-governed Permaculture & Miyawaki Food Forest (14,906 m² / 3.55 feddans at 29.9535736° N, 30.9217508° E).

Designed with open-source satellite and agroecological tools, this initiative empowers local residents, small grocers, nurseries, and a neighborhood charity (Jana Al Janatain) to transform a barren urban desert lot into a self-sustaining 7-layer food forest producing 12.8 tons/year of free organic food while harvesting 100% of its water from flash-flood street runoff, AC condensate, and greywater bio-filtration.

• Live Community Hub & Survey: https://cryptoprince9.github.io/october6-food-forest-form/
• Full Feasibility & Engineering Study (PDF): https://cryptoprince9.github.io/october6-food-forest-form/0_Complete_Combined_Portfolio_AR.pdf

Thank you for your consideration and support for grassroots agroecology in the MENA region.

In solidarity,
Founding Community Committee — 6th of October City Food Forest

9. الوكالة الألمانية للتعاون الدولي (GIZ Egypt) وبرنامج المدن الخضراء (6th of October GCAP)

Technical & Infrastructure Co- :قيمة المنحة/الدعم | GIZ Egypt & EBRD Green Cities (6th of October GCAP Alignment) Financing

`giz-aegypten@giz.de, info@giz.de`

Subject: Green Urban Infrastructure Pilot in 6th of October City (GCAP Alignment): Sponge-City Permaculture Food Forest

Dear GIZ Egypt Urban Development, Water, and Climate Adaptation Teams,

We are pleased to share the engineering feasibility study and master plan for a community-led Green Urban Infrastructure & Sponge-City Food Forest pilot in 6th of October City, Giza (14,906 m^2 at 29.9535736° N, 30.9217508° E), directly supporting 6th of October City's Green City Action Plan (GCAP).

Our design solves two critical municipal challenges at zero operational cost to the City Authority:
1. Urban Flash-Flood Mitigation: Three Keyline contour swales with street curb-cuts capture up to 828 m^3 of stormwater per storm event (100% of a 31.5 mm Dragon Storm event).
2. Urban Heat Island & Water Scarcity: A 10,500-tree Miyawaki + 7-layer food forest irrigated via AC condensate, bio-filtered greywater, subsurface clay Ollas, and deep-root hydraulic lift (Baobab & Sea Buckthorn).

• Live Project Portal: https://cryptoprince9.github.io/october6-food-forest-form/
• Full Engineering Dossier (PDF): https://cryptoprince9.github.io/october6-food-forest-form/0_Complete_Combined_Portfolio_AR.pdf

We welcome collaboration with GIZ Egypt's urban greening and climate adaptation programs.

Sincerely,
Founding Community Committee — 6th of October City Food Forest

10. مؤسسة ساويرس للتنمية الاجتماعية وبرامج المسؤولية المجتمعية الخضراء بمصر

Sawiris Foundation for Social Development & Egyptian Green CSR Partners | قيمة المنحة/الدعم: EGP 1,000,000 – 250,000

(CSR / Community Development Grant)

`info@sawirisfoundation.org`

Subject: مقترح رعاية وتمويل مجتمعي: أول غابة طعام مجانية ومياواكي بمدينة 6 أكتوبر (ضمن مبادرة 100 مليون شجرة)

السادة الكرام في مؤسسة ساويرس للتنمية الاجتماعية وإدارات المسؤولية المجتمعية والبيئية (CSR)،

تحية طيبة وبعد،

نتشرف نحن اللجنة التأسيسية لمبادرة «غابة الطعام المجتمعية ومياواكي بمدينة 6 أكتوبر» (بالتنسيق مع جهاز تنمية مدينة 6 أكتوبر ووزارة البيئة والجمعيات الأهلية بالمنطقة) بعرض دراسة الجدوى الهندسية والبيئية المتكاملة لتحويل قطعة الأرض الفضاء البالغة مساحتها 14,906 م² (3.55 فدان) شمال سنتر المأمون بمدينة 6 أكتوبر (29.9535736°N, 30.9217508°E) إلى أول غابة طعام حضرية مستدامة ومجانية في مصر.

• الأثر المجتمعي والغذائي: إنتاج 12.8 طن سنوياً من الفواكه والزيتون والمورينجا وثمار التبلدي ونبق البحر توزع مجاناً على الأهالي والأسر المستحقة، مع معمل بيئي مفتوح لأطفال الحضانات والمدارس المحيطة.
• الاستدامة المائية والمناخية: توفير 78% من استهلاك المياه عبر الفخار المسامي المدفون (Ollas) والرفع الهيدروليكي الحيوي وحصاد مياه الأمطار، واحتجاز 41 طن كربون سنوياً والتكييفات.

• البوابة الرقمية للمشروع واستمارة مشاركة السكان الحية: https://cryptoprince9.github.io/october6-food-forest-form/
• دراسة الجدوى الشاملة والمخطط الهندسي (PDF): https://cryptoprince9.github.io/october6-food-forest-form/0_Complete_Combined_Portfolio_AR.pdf

نتطلع لشرف التعاون مع مؤسستكم الموقرة لدعم تعميم هذا النموذج الرائد في المدن المصرية الجديدة.

مع خالص التقدير،
اللجنة التأسيسية لمبادرة غابة طعام مدينة 6 أكتوبر
